

# ABOUT US

As a college access organization, the Fulfillment Fund provides first-generation, low-income students with the support necessary to graduate from high school and go on to college.

Through classroom instruction, college counseling, mentoring and scholarships, we transform the lives of students, beginning in high school and extending to college graduation.

## HIGH SCHOOL PROGRAM

Our high school program provides college guidance services to orient students to the college-going process so they understand – and meet – the requirements for high school graduation.

## ONE-ON-ONE COLLEGE COUNSELING, GUIDANCE AND COLLEGE TOURS

We create a personalized education plan, including a list of potential colleges and universities. We also provide SAT, financial aid, and college application workshops.

In addition, we take students on local college site visits to Northern and Southern California schools so they can explore college options and begin to envision themselves as college students.

## SCHOLARSHIPS

We provide multi-year college scholarships to Fulfillment Fund students that meet academic and need-based criteria.

Without the support of Fulfillment Fund scholarships, many of our students that have been accepted into college would not be able to attend.

## MENTORING

Recognized as among the best in the state, our mentoring services help students reach their highest potential through a professionally-supported relationship with a caring and committed adult mentor.

Students in need of mentoring are selected from our high school classrooms. We offer extensive training, support, programs and workshops to our student-mentor teams, and closely case-manage the mentoring relationship.

## OUR RESULTS

- ◆ Fulfillment Fund students graduate high school at a higher rate than their peers and the majority go on to college.
- ◆ Our impact expands beyond the students we serve directly; they, in turn, influence siblings, peers and their community by becoming role models, volunteers, mentors and donors.
